

Juan's Fragrance Lab  
Volume 3, Issue 2

A Fresh Spring Welcome!

This spring edition of Juan's Fragrance Lab is dedicated to fresh blends. Sultry florals, herbal citrus compositions, soothing spa like scents and delicious fruity blends are some of the scents featured in this group of five fragrant combinations that give spring a Fresh Welcome....Enjoy!

Apple Blossoms & White Hyacinth

5 parts OT Island Lullaby

5 parts OT Cutting Garden

2 parts OT Northcountry Apple

2 parts OT Tiare Blossoms

This blend smells like a mid spring country garden in full bloom after a soft rain. Delicate pastel pink apple blossoms, subtle floral fragrances and beds of pristine white hyacinths kissed by the rain release their intoxicating fragrance in the air. Green stem notes and soft apple notes compliment this spring blend.

Kölnisch Wasser (Aka. Eau de Cologne)

5 parts OT Orange Blossom \*Neroli Type\*

2 parts OT Lemongrass & Sage

2 parts OT Lemon-a-Peel

1 part OT Rosemary Mint Aveda type

Does 4711 sound familiar to you? Kölnisch Wasser is the German meaning for "Cologne water". This fresh and clean smelling blend smells very much like a classic "Eau de Cologne". It's a citrus fragrance with top notes of neroli and lemon and a background of

fresh herbs. It's AMAZING in cold process soap! I just made my second batch of soap with this incredible fragrance and one of my customers ordered a whole bath of this scented soap blend. It sticks beautifully with no discoloration or acceleration.

#### Applemint & Honeysuckle

1 part OT Spring Mountain Mint

1 part OT Northcountry Apple

1 part OT Wild Honeysuckle & Green Fig

A blend inspired by the wonderful fragrance of applemint, a variety of mint with a crisp fragrance reminiscent of apple and mint. This spa-like blend combines a fresh floral mint and true apple notes with the sweet nectar of wild honeysuckle flowers and a nuance of fig leaf.

#### Sea of Tranquility

5 parts OT Spring Mountain Mint

3 parts OT Rarotongan Mist

2 parts OT Cool Mountain Lake

1 Not your usual "sea" fragrance. Sea of Tranquility is a refreshing blend of mint leaves floating in a sea of cool "watery" notes. The freshness of Spring Mountain Mint and Cool Mountain Lake combine with the exotic Rarotongan Mist to create a unique soothing fragrance. This will be the ultimate fragrance for your high end line of spa products. How about a salt bar scented with this blend?? or soothing bath salts?? or shampoo? even a candle? This blend screams for a complete line of products...Try It! You'll "sea" what I mean!!!

#### Asian Pear & Camellia Blossom

5 parts OT Perfect Pear

3 parts OT Northcountry Apple

3 parts OT Jasmine Yin Hao

It's a pear with an Asian flair. This blend smells absolutely delicious!. Crisp sparkling pear and apple notes are harmoniously fused with green tea and jasmine petals in a blend that smells so incredibly good that simply goes beyond description. I see this blend in body mists, lotions and body butters... Yum!!!

Fragrance Highlights:

Northcountry Apple

Fruity fragrances are not usually my cup of tea, but Oregon Trail's Northcountry Apple is heavenly!! The most amazing apple fragrance I have ever tried. It has a wonderful depth I haven't smelled in any other apple fragrance before. It starts with a nice sparkling and very realistic "Granny Smith" apple peel like note. The sparkling mouthwatering apple notes are rounded with subtle florals that really make the apple fragrance very realistic and exceptional. I encourage you to give Oregon Trail's Northcountry Apple a try. My word doesn't do this fragrance justice - it is a MUST TRY!!

Perfect Pear

This is the pear that started all. It's an incredible pear fragrance that smells just like biting into a fresh juicy Bartlett Pear. Its realistic juicy pear fragrance holds perfectly in cold process soap with no acceleration or discoloration. No wonder why it's named "Perfect Pear"!

Spring Mountain Mint

This one is easily one of my favorite mint or herbal fragrances. It's a refreshing mint that will surely appeal to everyone, even those who normally don't care for mint fragrances. Its cool mint scent is rounded with other herbal notes and light floral nuances that really make this mint fragrance very unique.

In the next edition - Exotic Tropical Blends!!!!
